

# dynamo

A water dispersible granule containing dithianon of 700 g/kg for use as a fungicide on apples and pears

# 5Kg

**FOR USE ONLY AS A HORTICULTURAL FUNGICIDE  
FOR PROFESSIONAL USE ONLY**

## SAFETY INFORMATION

### DANGER

Toxic if swallowed.  
May cause an allergic skin reaction.  
Causes serious eye damage.  
Suspected of causing cancer.  
Very toxic to aquatic life with long lasting effects.

Wear protective gloves/protective clothing, eye and face protection.

Obtain special instructions before use.

If in eyes: rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a poison centre or doctor/physician.

If swallowed: Immediately call a poison centre or doctor/physician. Rinse mouth.

Store locked up.

Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for triple rinsed empty containers which can be disposed of as non-hazardous waste.

Do not contaminate water with the product or its container. (Do not clean application equipment near surface water/Avoid contamination via drains from farmyards and roads).

To protect aquatic organisms respect an unsprayed buffer zone of 30 m to surface water bodies.

**To avoid risks to human health and the environment, comply with the instructions for use.**

**PCS No: 06397**

### Precautions

If exposed or if you feel unwell seek medical advice immediately (show the label where possible).

No specific antidote is available. Treat symptomatically.

In case of accident, call the 24-hour National Poisons Information Centre:

Tel.: +353 (0)1 809 2566 or +353 (0) 1 837 9964.

### General information

DYNAMO is a fungicide containing dithianon for the control of scab on apples and pears. Dithianon is a multi-site inhibitor that acts by modification of sulphhydryl (SH) groups found in the cysteine residues of many proteins.

### Instructions for use

FOR PROFESSIONAL USE ONLY AS A HORTICULTURAL FUNGICIDE				
Crop	Max. single dose	Max. no. of applications	Max. total dose	Latest time of application
Apples and pears	0.5 kg/ha	6	3 kg/ha	Up to fruit about 90% of final size GS 79 (no less than 42 days before harvest)

**READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE. FOLLOW THE CODE OF PRACTICE FOR USING PLANT PROTECTION PRODUCTS.**

**Specific restrictions:** Do not apply by hand-held equipment. On variety Golden Delicious, do not use DYNAMO after green cluster. DYNAMO must not be mixed with lime Sulphur or highly alkaline products.

**Method of application:** Tractor-mounted orchard/blast/air assisted sprayer.

**Information on application:** Apply DYNAMO in a minimum of 200 litres water/ha with a 7 to 14 day spray interval. Use a 7 day interval on varieties that are highly susceptible to scab infection or when the crop growth is rapid. Water volumes should be based on the size of the trees and leaf area at application, and sufficient to ensure good coverage.

**Mixing, application and cleaning procedures:** Half fill the spray tank with clean water and start agitation. Slowly add in the required amount of product. Empty container completely and dispose of safely. Add the remainder of the water and continue agitation until spraying is complete. Apply by any low or high volume orchard sprayer.

**Resistance:** Because of its multi-site mode of action, DYNAMO has a low risk of resistance development and there have been no reports of resistance or reduced sensitivity to this fungicide. Ensure that DYNAMO is used according to the label recommendations and in accordance with Fungicide Resistance Action Group (FRAC) guidelines.

### Specific pest controlled

Control of Scab in apples (*Venturia inaequalis*) and pears (*Venturia pyrina*).
